## **Brief List of Employment history**

- 1.** I was attached to **Alexandria University Hospitals** as an intern from March 1990 till February 1991. Since then, I've been assigned by the Egyptian Ministry of Health to work in Karmouz Hospital / Alexandria as a urology resident till Nov 2001. I was supervised then by Professor Dr. Saad Mohammad Saad & Professor Ahmad Abdul Wahhab Rayan.
- 2. Insurance Hospital / Riyadh-** Saudi Arabia- urology specialist- from November 11, 2001- December 1, 2002.
- 3. IUSSC (International Urology &Specialized Surgery Center /Muscat –Sultanate of Oman-** urology specialist, from May 26, 2003 – May 25, 2004.
- 4. Royal Hospital /Muscat – Sultanate of Oman –urology specialist,** from May 2004- June 2005.
- 5. NMC Specialty Hospital /Abu Dhabi –UAE – urology specialist,** from December 2009 – August 2015.
- 6. Burjeel Medical Center / Abu Dhabi –UAE – urology specialist** from April 2016 – till October 2022 - appreciation certificate attached – please see below. While serving as a urologist/andrologist in the center , I took responsibility for being the Acting/Deputy Medical Director on several occasions – as needed.

From October 2022 to August 2023, I had the opportunity to collect and review patient feedback and explore how it fits with various healthcare business models and facilities, including outpatient clinics, daycare centers and hospitals. This experience was incredibly rewarding as it allowed me to gain insight into patient needs, how they are addressed by different healthcare structures and how processes can be optimized in terms of patient experience and its impact on the business. The impact this has had on my professional practice is a huge benefit that helps to align me with the goals of the organization.

- 7. Swedish Medical Center :** Since September 2023 till the moment : building urology services from scratch.

## **Summary of urologic / andrological services provided.**

### **Services provided include but limited to:**

1. Management of Urinary Tract Stones: Endourology & Laser Surgery for Stones.
2. Dealing with “prostate diseases” in all different age groups including the recently introduced minimally invasive surgery including Rezūm , iTind & UroLift.
3. Handling Urinary Tract Infections: Male / Female especially the most complicated (especially very long-term resistant infections that failed treatment - in other places - for years).
4. Endoscopic Urethral Strictures treatment
5. Urologic Oncology management.
6. Thorough Evaluation for the Subtle Urinary Tract Symptoms  
(That has a huge impact on patients’ quality of lives – things they used to live with & accept as normal being unaware that these were not normal).
7. Management & treatment of men’s health issues including erectile dysfunction, premature ejaculation & infertility).
8. Recent minimally invasive BPH treatments
9. Relevant recent erectile dysfunction treatments including shockwave therapy & P-Shot.
10. I am comfortably & confidently covering no less that 85 % of patient needs while having a good reputation among patients from all the seven emirates with insight into the market & its challenges.

**Warm sincere regards.**

**Dr. Ayman Fawzy Hakim Stephanos,  
M.D., Urologist,  
MchUrAlex / Egypt -Master of Urology  
FEBU / Fellow of the European Board of Urology**
