Medical laboratory Technologist - Blood bank
 - I performed tests for blood group antigens, compatibility, and antibody identification.
 - I conducted blood collection and processing, which included selecting donors, collecting blood, typing blood, and molecular testing.
 - I identified blood types and antibodies.
 - I tested blood for viruses that might have been transmitted during transfusion.

Education

- **Sudan University of Science and Technology** 2020 - 2021
Post graduate diploma _ Medical Laboratory
- **University of Kordofan** 2018
Bachelor of Medical Laboratory Technician

Hard And Soft Skills

- Laboratory Techniques (e.g., Specimen Collection, Handling, and Analysis).
- Medical Equipment Operation (e.g., Microscopes, Centrifuges, PCR Machines).
- Quality Control and Quality Assurance.
- Data Entry and Record Keeping.
- Proficiency in Lab Software and Information Systems.
- Safety and Sterilization Protocols.
- Troubleshooting and Problem-Solving.
- Communication and Teamwork.
- Attention to Detail.

Licenses

- DHA Eligibility.
- DOH Eligibility.
- Specialist Medical Laboratory - National Council for Medical and Health Professions _ Sudan.

Courses And Workshops

- Training Course on PCR, Sudan 2021.
- Nasal and Oral Swab Specimen Collection for Covid -19, Sudan 2021.
- Technical Training Course on Malaria Investigation, Sudan 2019 - 2020.
- Technical Training on Blood Banks, Sudan 2019 - 2020.
- Workshop on Medical Laboratory Instruments, Maintenance and Quality Control, Sudan 2019 - 2020.

Languages

- Arabic: Native.
- Advanced english proficiency.
