BSc. MIS Top Honors graduate with a 6-month internship experience in Al Qassimi General Hospital and Al Qassimi Women's and Children's Hospital. A quick learner with academic abilities and technical knowledge to succeed in different roles. Ready to apply my knowledge and skills gained from training and experience. Eager to help others and support team goals. Enthusiastic technologist with a keen eye for detail.

## Professional Experience

**Al Qassimi Hospital, Sharjah**  
**Radiology Technologist Intern**

**December 2023 – June 2024**

During my internship, I completed a 4-month rotation at the main Al Qassimi Hospital and subsequently spent 2 months at the Al Qassimi Women's and Children's Hospital. This experience profoundly strengthened my confidence and capabilities in diagnostic imaging.

- Attended various ultrasound procedures, including abdominal scans, KUB assessments, and arterial & venous Doppler studies for both the upper and lower extremities.
- Observed an ascitic tap procedure using the help of ultrasound.
- Conducted X-rays on immobile trauma patients with multiple fractures.
- Performed X-rays on uncooperative Down syndrome pediatric patients.
- Assisted in numerous fluoroscopic procedures for pre- and post- bariatric surgery, HSG, and MCUG patients.
- Attended various orthopedic surgical procedures, like fracture fixation, and learned to operate C-arm machines in the operating theater.
- Executed portable X-rays for critically ill ICU, NICU, and PICU patients.
- Carried out CT abdomen angiography.
- Conducted CT scans of the KUB, abdomen, brain, high-resolution chest, and sinuses.
- Performed CT scans on pediatrics, trauma, ventilated, and intubated patients.
- Performed MRI scans of the brain, lumbar spine, brain diffusion, and cervical spine.

## Education

**Gulf Medical University, Ajman**  
**Bachelor of Science in Medical Imaging Sciences (BSc. MIS)**  
**CGPA – 3.94**

**September 2019 – June 2023**

- Throughout those four years, I acquired extensive knowledge that forms the foundation of my current expertise.
- Attended clinical postings in Sheikh Khalifa Medical City Ajman, American Hospital, Dubai Hospital, Rashid Hospital, Al Qassimi Hospital, International Radiology Center, and Thumbay Hospitals.

**Gulf Medical University, Ajman**  
**Master of Science in Medical Ultrasound (MSc. MUS)**

**August 2024 – Present**

- As I pursue my passion for ultrasound, I am eager to widen my knowledge and deepen my understanding in this field.

## Key Skills

- Radiation Protection
- Healthcare Team Collaboration
- Image processing

- Medical Equipment Positioning and Preparation
- Patient Care and Safety
- Medical Terminology
