## ACTIVITIES

- **Conducting Dental Health Camps:**Organizing and participating in dental health camps to provide oral health screenings,dental cleanings, and education to undeserved communities. This involves setting up temporary clinics, assessing oral health conditions, and providing preventive care.
- **Hospital visits:** Collaborating with hospitals and health care facilities to provide dental care to patients with special needs, such as those who are hospitalized or have limited mobility. This may involve performing oral health assessments, administering dental treatments, and educating patient's on proper oral hygiene practices.
- **Seminars and Workshops:** Leading or participating in seminars, workshops, and community outreach programs to raise awareness about oral health and promote preventive dental care. This includes delivering presentations, organizing interactive sessions, and providing practical oral hygiene demonstrations.
- **Oral Health Education :**Conducting educational sessions in schools, community centers, and other settings to teach children and adults about the importance of oral health. This includes promoting good oral hygiene habits, explaining the effects of diet on oral health, and emphasizing the importance of regular dental check-ups.
- **Patient Counselling:** Providing individualized oral health counseling to patients including discussing treatment options, explaining procedures, and addressing any concerns or questions they may have. This helps patients understand their oral health status and make informed decisions about their dental care.
