## EXPERIENCE

### Hôtel-Dieu de France Hospital, Outpatient Clinic

#### Physician, General Medicine - Part Time

- Delivered treatment to 12 patients on average per day, analyzed lab tests to identify abnormalities, monitored blood pressure, prescribed medication to treat chronic and non-life-threatening illnesses, and provided necessary health education training for patients

Beirut, Lebanon  
2022 - 2023

### Notre Dame des Secours University Hospital

#### Medical Intern - All Medical and Surgical Departments

- Supervised over 40 patients with life-threatening conditions; from physical and clinical examinations to medical interventions and treatment administration, ensuring 100% safety to patients
- Engaged in medical management for a diverse caseload of 35 patients on average per day, reducing 20% of emergency room visits
- Accompanied cancer patients undergoing palliative care during hospital stays, offering patient education and addressing nearly 100% of inquiries promptly, resulting in an 80% increase in patient satisfaction scores and reducing anxiety levels for over 50 critical cases
- Directed teams of four interns on a weekly basis, promptly collaborating during night shifts, evaluating critical and non critical cases, and assigning specific tasks to each team member, improving overall patient care and time efficiency
- Engineered a program management system, including workshops and powerpoint presentations on weekly basis to interns, fostering continuous and shared learning amongst all stakeholders
- Led the effort to integrate administrative tasks and adopt the SAP digital platform to streamline resources for doctors, facilitating the transition from manual folders to a digital data system, decreasing delays in patient's management by at least 50%

Byblos, Lebanon  
2020 - 2022

### Hôpital européen Georges-Pompidou, AP-HP

#### Medical Intern - Gastroenterology Department

- Presented medical cases for 10 interns to evaluate; engaged in weekly conferences with 6 senior residents and attending physicians on rare diseases; contributed in decision-making and therapeutic management protocols
