

JOHN FLOYD Q. PALMES

RADIOGRAPHER
DHA LICENSED

SUMMARY / OBJECTIVES / PROFILE

To work hard with full dedication for the achievement of organization objective under satisfying job contract, hence enhancing my skill and knowledge and ready to learn new things.

WORK EXPERIENCE

UNITED ARAB EMIRATES EXPERIENCE:

GARGASH HOSPITAL

Umm Suqeim St. Dubai, UAE
May 2024 – Present

Responsibilities:

- Effectively performed diagnostic examinations. Created all diagnostic images using state of the art scanning machines. Determined the best anatomical positions to ensure quality diagnostic images. Responsible for the care and safety of patients undergoing diagnostic procedure. Customer Care/Service – Clerical Responsibilities.
- Maintain close communication with the radiologists to meet all procedural demands and specifications. Considering the nature of critical and emergency operations, patient priorities are set in accordance with radiologist instructions in order to accommodate them.
- To maintain patients' security and comfort, keep an eye on them and provide care as needed throughout the examination. Observes all radioactive safety precautions and procedures.
- Gather complete patient information, such as past test results and details from physical examinations, and document it.
- Organize tasks with doctors and other members of the medical staff, helping out as necessary during invasive operations.
- Keep patient records, correspondence files, publications and regulations, quality assurance records, and patient information and interpretations in your records (pathology, biopsy, post-operative reports).
- Equipment should be cleaned, checked, and maintained. Minor repairs or requests for maintenance should be made as needed.
- Conduct medical treatments such as oxygen administration, airway insertion and removal, vital sign taking, and emergency first aid.
