Seeking excellence in work, I am looking for a vacancy in medical field (Ophthalmology) where I can apply my clinical and surgical skills. With three-year experience as an Ophthalmologist, a long with six-year experience as a general practitioner, I believe I can administer an eye clinic and demonstrate all minor and major Ophthalmology surgeries at a high level of quality at a well-known hospital/polyclinic like yours.

With such expertise, I am confident that I can greatly contribute to your hospital/polyclinic. I look forward to discussing any opportunity, and my qualifications, in further detail.
