## **Personal summary and Career Objective**

**I have been in a continuous medical practice since June 2010. In my career span of 14 years, I have worked for six years in the Department of Anesthesiology and intensive care after my post graduation. As an anesthetist and intensivist, I have worked at Max superspeciality hospital Shalimar Bagh, New Delhi where I got very good exposure in pain management and surgical ICU. As I was more inclined towards government setup, I joined GB Pant postgraduate medical institute as a senior resident on 22<sup>nd</sup> June 2019 where I worked mostly on cardiac OT and ICU, cath lab, neurosurgery OT and ICU, GI surgery OT, gastroenterology ICU and general ICU on rotation basis every six months. I was active on the academic activities, on seminars and presentations. I served ICU duties with all my enthusiasm during COVID pandemic in both first and second wave. Currently, I am working on the post of Assistant Consultant at Indian Spinal Injuries Centre at Vasant Kunj, New Delhi India.**

## **Competencies, Procedures and Clinical skills**

### **Procedure and skills done Independently**

- **History taking and clinical examination.**
- **IV Cannula Insertion and venous sampling - > 1000 times, till now. During my residency we were supposed to do cannulation as well as sampling by ourselves for all the patients we examine. I am trained to insert cannula in all age group patients.**
- **Arterial line and ABG sampling**
- **Endotracheal Intubation and ventilator settings**
- **Central line Insertion. (Can insert via IJV route, Femoral route and also subclavian route.)**
- **Foreign body bronchus.**
- **Paracentesis**
- **Thoracentesis**
- **Cardiopulmonary Resuscitation (CPR).**
- **ICD tube Insertion.**
- **Manual Defibrillation and AED**
- **Chemical cardioversion**
- **Procedural sedation.**
- **E-FAST**
- **POCUS (Point of Care Ultrasound).**
- **Ventilator Management Skills.**
- **BRACHIAL PLEXUS Blocks, Ankle blocks.**
- **Percutaneous tracheostomy**
- **Bronchoscopy.**
