June 2018 - August 2018

- Collected blood samples with a focus on accuracy and adherence to aseptic techniques.
- Conducted routine laboratory tests and sample analysis (CBC, Urine + Stool Analysis).

## **EDUCATION**

### **Al-Azhar University, Palestine, Gaza — *bachelor's degree***

Gaza

Bachelor of Applied Medical Sciences - Department of Laboratory Medicine.

## **COURSES**

- Core diagnostic skills in medical microbiology program – OSIA. (Mar2022)
- Clinical body fluids microscopic analysis program – OSIA. (Jan2022)
- Quality in medical laboratory program – OSIA. (Dec2021)
- Medical skills - Erada Training and Consulting. (Sep2021-Oct2021)
- Microbiology program in the pharmaceutical industry – OSIA. (Sep2021-Oct2021)
- Emergency and safe delivery course - the union of health work committees. (Apr2018)
- A course on preparing animators to Liaise with children in health education. (Sep2017-Jan2018)
- A course for preparing trainers and intellectuals in the health field - the union of health work committees. (Aug2017-Jan2018)
- Diploma in medical analysis course - step center for training and development. (Jul2017-Aug2017)
- Body language course - Forsa center for training and development. (May2017-Jun2017)
- First aid course - Forsa center for training and development. (Mar2016)
- Practical nurse course - Forsa center for training and development. (Mar2016)
- Health program - Forsa center for training and development. (Dec2015)

## **SKILLS**

- Phlebotomy.
- Analysis & Research.
- High-quality work. Reporting.
- Excellent use of Microsoft.
- Quality Control.
- Clinical Microbiology.
- Patient Safety.
- Clinical Research.
- Healthcare.

## **LANGUAGES**

Arabic: Native. English: Excellent.
