## Professional Summary

---

Skilled and dedicated physician with over 5 years of experience in Internal Medicine and general practice, I excel in diagnosing and managing acute, chronic, and emergency cases. I possess strong clinical judgment, excellent communication skills, and a patient-centered approach. Committed to continuous learning, I strive to deliver exceptional care and advance my medical career.

## Work Experience

---

### Educational Sabbatical and Relocation

- 04/2023 - Present  
I embarked on a voluntary career hiatus to pursue further studies and relocation. During this time, I passed MRCP-1, MD Internal Medicine, and DHA GP exams, and obtained ACLS certification. After relocating to the UAE, I received DHA eligibility and MOH evaluation letter and have been actively seeking clinical roles since then.

### Resident, Internal Medicine

Pakistan Institute of Medical Sciences • Islamabad, Pakistan 01/2019 - 03/2023

- Managed over 100 emergency cases, 50+ outpatient consultations, and 30+ inpatient cases daily at a major tertiary care hospital.
- Collaborated with specialists and healthcare teams to deliver coordinated, multidisciplinary patient care.
- Conducted thorough physical examinations, interpreted diagnostic tests, and adjusted treatment plans as needed.
- Educated patients on disease prevention, lifestyle modifications, and medication adherence, with an emphasis on screenings and vaccinations.
- Provided specialized care for emergency and chronic conditions, including diabetes and hypertension, and played a vital role during COVID-19 and dengue/influenza outbreaks.
- Performed essential medical procedures such as CPR, IV cannulation, and intubation.
- Mentored and supervised medical students, junior doctors, nurses, and support staff to foster clinical skill development.
- Attended medical conferences and workshops, earning certifications in Basic Life Support (BLS) and Advanced Cardiac Life Support (ACLS).
- Managed administrative responsibilities, including issuing prescriptions, signing death certificates, and providing fitness-for-work assessments.
- Consistently received positive feedback, achieving a 90% patient satisfaction rate for clinical expertise and patient-centered care.
- Adhered to strict infection control protocols while developing individualized, evidence-based treatment plans.
