## ABOUT ME

I have served one of the most well reputed hospitals of Pakistan as Hospital Pharmacist for more than ten years. I also worked with govt. sector in a specialized cardiac care hospital as Assistant Inventory Officer which has further developed my analytical and multitasking skills along with specialized training in inventory management.

Moreover, I have experience as a Retail Pharmacist, one year in Pakistan and almost two years in UAE where I work in a clinic pharmacy as Incharge Pharmacist. This experience has not only polished my abilities as a Retail Pharmacist but also helped me to improve my communication skills by dealing and working with people of different nationalities. I also have a good experience of using insurance softwares and their procedures.

My experience on different positions in different organizations has helped me adapt to different working conditions. It allows me to handle any kind of hospital or community pharmacy and to work as a team man or a leader. I consider myself to be a useful asset for your organization.
