## ❖ ❖ MEDICAL TECHNOLOGIST ❖ ❖

Reliable Medical Technologist with several experiences in manual procedures, semi-automation and fully automated laboratory setting.

---

### ▪ CAREER OBJECTIVE:

Aim to work in an institution where I can hone my vastly growing knowledge that I learned in my chosen career. As I pursue this path, I am open to everything that is new in concept and emerging technology in this type of field work. I also aim to improve my interpersonal relationship with my fellow colleagues so we can work in harmony and avoid any possible misunderstanding that might occur.

### ❖ Professional Licensure/Eligibilities

- June 8, 2022 Certificate holder (Dubai Health Authority) – Allied Health – Technologist – Medical Laboratory  
DHA unique ID – 62587608  
Expiry date – June 8, 2023
- November 15, 2017 License No. 0083800  
Board of Medical Technology  
Philippine Regulatory Commission
- October 22, 2021 MLS (ASCP<sup>i</sup>)<sup>CM</sup>  
International Medical Laboratory Scientist  
Certification No. 14200  
ASCP Board of Certification

### ▪ EXPERIENCES :

#### ❖ Medicus Philippines Inc. Tabuc Suba Branch (February 16, 2019 – July 12, 2022)

- Performed Semi-automated Chemistry analyzer [Linear (Temis and Hera)]; Principle: Photometry; Methodology: End-point, kinetics, and fixed time.
- Performed Automatic Hematology analyzer (Zybio Z3). Principle: Impedance for WBC, RBC, and Platelet counting and Colorimetric for Hemoglobin
- Able to troubleshoot and repair simple machine problems (e.g. replace busted tungsten halogen lamp for our analyzer and replace light source for our microscope).
- Have a good background in blood extraction.

❖ **Bioshield Family Clinic and Diagnostic Center** (March 1, 2018 – January 15, 2019)

- Performed manual procedures in different laboratory sections e.g. Hematology, Clinical Microscopy, and Parasitology.
- Performed semi-automated procedures in clinical chemistry.
- Able to run standard and control in different chemistry tests.
- Able to plot monthly quality control chart.
- Capable of troubleshooting e.g. the machine is giving erroneous results.
- Performed serologic procedures using iChroma to determine many different serologic tests.

❖ **Western Visayas Medical Center (Internship)**

**Duration:** 1 year

- Performed different STAT and routine testing in all laboratory department
- Hands-on on different laboratory equipment and machines
- Evaluate quality control information against measurable data
- Perform troubleshooting in times of machine failure
- Have an excellent background in specimen collection and processing

▪ **TRAITS:**

- Excellent in time management
- Good in coping up with fellow workers
- Good with communication for a faster work output
- Exceptional organizational skills
- Very organized when it comes to processing different specimen

▪ **EDUCATIONAL BACKGROUND**

**Primary:** Iloilo Central Elementary School

SY. 2008-2009

**Secondary:** University of San Agustin

SY. 2012-2013

**Tertiary:** University of San Agustin

SY. 2016-2017
