Subject: **Application for Nursing Assistant/Healthcare Assistant Position**

Dear Sir/Madam,

I am writing to express my interest in joining a hospital/medical center/home care as a Nursing Assistant. I would like to achieve my personal and professional goals at local and global levels as a healthcare professional or healthcare worker. I developed a heart for being a Nurse Assistant. I gained the insight during my educational days and work life, that without health a person has great difficulty attaining a substantial quality of life. I have developed a great and strong foundation in C.N.A Certified Nursing Assistant concepts and principles including client-centered care, holistic care involving healing the mind, body and soul of the patients; learned group dynamics on how to interact and communicate; high emotional intelligence; shared governance achieving quality care and the most importantly the need for flexibility in terms of working hours. I think critically and work collaboratively with my patients and other health care professionals. I have cultivated communication skills that improved the quality of my patient care and my ability to participate meaningfully in team processes. The attached resume details my education, certifications, qualifications, and skills.

I would be delighted to begin my health care professional career as a Nurse Assistant and give back to the community my experiences and gratitude that I am learning. I would welcome the opportunity to meet or have a call so that we can discuss the possibility of starting my career as a Nurse Assistant/Healthcare Assistant. I am open to work in any part of the world. Please feel free to contact me if you need any further information from me.

Thank you for taking the time to consider my application.

Successfully completed and passed the Certified Nursing Assistant C.N.A Training course and Nursing Assistant Certification from American Medical Certification Association (AMCA), at STRONG POINT EDUCATIONAL TRAINING INSTITUTE, UAE, Official Testing Center.
