Objective

Certified Medical Coder with 2 years of experience in denial management, specializing in resolving denied claims and ensuring compliance with healthcare regulations. Proficient in ICD-10-CM, CPT, and HCPCS coding systems, with a proven record of accuracy and attention to detail across multiple specialties. Skilled in analyzing claims documentation, identifying discrepancies, and coordinating with insurance providers to optimize claim approvals. Strong foundation in medical terminology, anatomy, and healthcare compliance standards to support accurate and timely claims processing.

Experience

Senior Medical Coder, Sagility – Bengaluru, India

May 2022 – Aug 2024

- Analyzed and resolved denied claims by identifying coding discrepancies and inaccuracies, significantly reducing resubmission rates and supporting streamlined reimbursement processes.
- Processed over 1,200 healthcare claims monthly with a demonstrated accuracy rate exceeding 98%, ensuring precise ICD-10-CM, CPT, and HCPCS coding across multiple medical specialties.
- Trained and mentored junior medical coders, sharing expertise in coding standards and compliance to enhance team performance and maintain high accuracy in claims submissions.
- Conducted regular audits of coded medical records to verify compliance with healthcare regulations, identify areas for improvement, and report findings to optimize coding accuracy and reduce errors.
- Collaborated with insurance providers and healthcare professionals to address coding-related issues, clarify documentation discrepancies, and expedite claim approvals, fostering efficient claims processing and minimized denial rates.

Skills & Expertise

- ICD-10-CM, CPT, and HCPCS Coding Expertise
