

MOSTAFA ALGEZAWY

MEDICAL LABORATORY TECHNICIAN

0558857820 | lab.algezawy@gmail.com | <https://www.linkedin.com/in/mostafa-algezawy>.

Production City, Dubai, UAE | Nationality: Egyptian | Dubai Health Authority (DHA) Eligibility Letter – 2024
Evaluation Letter from Ministry of Health (MOH)

Highly skilled Medical Laboratory Technician with 20 years of experience in laboratory sciences, including blood banking, hematology, clinical chemistry, immunology, and diagnostic testing. Proficient in operating advanced laboratory equipment, ensuring precise sample analysis, Experienced in training junior staff and maintaining lab efficiency in high-pressure environments. Currently holding DHA and MOH eligibility letters and Evaluation Letter from Ministry of Health (MOH), with readiness to contribute to dynamic healthcare organizations in the UAE, Seeking to Obtain a medical lab technologist License from Dubai Health Authority Soon.

EDUCATION

Postgraduate Diploma in Chemistry/Biochemistry

- Faculty of Science, Mansoura University, Egypt – 2023

Higher Education Council Equivalency

- Equivalent to a Bachelor of Technology in Medical Laboratories – 2019

Specialized Diploma

- Benha Technical Health Institute, Egypt –

Diploma in Medical Laboratories

- Tanta Technical Health Institute, Egypt – 2001

CERTIFICATIONS & TRAINING

- Eligibility Letter from Dubai Health Authority (DHA) – 2024
- Evaluation Letter from Ministry of Health (MOH) – 2025
- Certified in Microbiology, Hematology, and ELISA Techniques – Continuous Medical Education Center, Egypt
- Training Course in Blood Bank from Regional Blood Bank.
- Certified in Malaria, Filariasis, and Schistosomiasis Control – Ministry of Health, Egypt
- Family Planning Techniques Certification – Ain Shams University, Egypt

PERSONAL INFORMATION

- Date of Birth: 10/03/1982
- Availability: Immediately available for employment in Dubai

PROFESSIONAL EXPERIENCE

Laboratory Technician

Integrated Health Hospital, Ministry of Health, Egypt

2002 – 2009

- Performed routine and specialized tests in hematology, microbiology, and clinical chemistry.
- Operated and maintained laboratory equipment, ensuring compliance with safety standards.
- Assisted in blood transfusion procedures and quality control audits.

Laboratory Technician

One-Day Surgery Hospital, Specialized Medical Centers Administration, Egypt

2009 – 2010

- Conducted diagnostic analyses, including ELISA and coagulation studies, for pre-operative and post-operative patients.
- Collaborated with the surgical team to ensure accurate test results and timely reporting.

Laboratory Technician

Blood Bank, Kafr El-Zayat General Hospital, Ministry of Health, Egypt

2010 – 2015

- Managed blood bank operations, including donor screening, blood grouping, and cross-matching.
- Investigated and resolved adverse transfusion reactions with adherence to safety protocols.
- Conducted quality checks on blood components and ensured proper storage conditions.

Laboratory Technician (Part-Time)

Al-Ahram Medical Laboratory, Egypt

2002 – Present

- Provided specialized diagnostic services, including hormone assays and infectious disease panels.
- Maintained laboratory records, patient data, and equipment maintenance logs.
- Implemented new testing procedures and ensured continuous service improvement.

Laboratory Technician

Family Medicine Center, Ministry of Health, Egypt

2015 – Present

- Performed comprehensive diagnostic tests for outpatient and family health programs.
- Ensured compliance with quality standards and regulatory requirements in lab operations.
- Trained and mentored junior technicians, fostering a collaborative and efficient work environment.

TECHNICAL SKILLS

- **Specimen Collection & Handling** - Blood, body fluid, and tissue sampling.
- **Lab Equipment Operation** - Microscopes, analyzers, and centrifuges.
- **Microbiology & Hematology** - Cultures, staining, CBC, and differential.
- **Clinical Chemistry & Immunology** - Biochemical and serological testing.
- **Quality Control & Assurance** - Calibration and regulatory compliance.
- **Biosafety & Waste Management** - Safe handling of hazardous materials.
- **Data Management & LIS** - Test recording, analysis, and reporting.
- **Troubleshooting & Maintenance** - Error detection and equipment upkeep.

LANGUAGES

- Arabic: Native
- English: Proficient

CORE COMPETENCIES

- **Specimen Handling & Analysis** - Expertise in sample collection, processing, and testing.
- **Laboratory Equipment Operation** - Skilled in using and maintaining lab instruments.
- **Quality Control & Assurance** - Ensuring accuracy and compliance with standards.
- **Biosafety & Laboratory Safety** - Adhering to safety protocols to prevent contamination.
- **Microbiological & Microscopic Analysis** - Performing cultures, staining, and microscopy.
- **Laboratory Information Systems (LIS)** - Managing data entry and test reporting.
- **Regulatory Compliance** - Following WHO guidelines and ISO 15189 standards.
- **Teamwork & Communication** - Collaborating effectively with healthcare professionals.
- **Emergency Response** - Handling lab errors and urgent situations.
- **Continuous Learning** - Staying updated on medical lab advancements.
