

## PROFESSIONAL EXPERIENCE

**Dr. Maham Younas**

**MBBS, FCPS ENT Part 1, General Practitioner**

**Registered General Practitioner from Dubai Health Authority & MOHP Both**

Tel: +971 502058361

Date of Birth: April 1992

Email: [maham\\_Younas@hotmail.com](mailto:maham_Younas@hotmail.com)

I am an experienced General Practitioner with over 5 years of experience in various departments including Cardiology, Emergency, Pediatrics, ENT, and Gynecology. Skilled in ECG and heart diagnosis, medical procedures, and excellent communication. Currently working as a Woman Medical Officer at the Punjab Institute of Cardiology. I want to work as a General Practitioner Doctor in UAE, utilizing my medical education and experience to provide exceptional care to patients. I know my work very well. Exceptional care for my patients is my top priority.

### **7 Reasons Why am I the Best Candidate for the Role?**

**Let me elevate your healthcare team.**

- ✓ Independently managed entire Cardiac Care Unit and saved thousands of lives.
- ✓ Exceptionally good at patient satisfaction and diagnosis.
- ✓ In depth understanding and experience in emergency medicine and pediatrics.
- ✓ PG level experience in ENT and passed FCPS Part 1 in ENT.
- ✓ 6 years of diverse work experience in emergency, CCU, Gynae, pediatrics, medicine and OPD.
- ✓ Exceptionally good at building patient trust and satisfaction.
- ✓ Experienced in high-volume 500+ bed hospital settings.

### **Punjab Institute of Cardiology, Government Hospital (2022- To date)**

**General Practitioner/ Medical Officer**

Experienced General Practitioner with over 6 years of experience in the medical field, currently working as a Woman Medical Officer (Grade 17) at the Punjab Institute of Cardiology, a government hospital. It is the largest heart facility in the country. I am highly skilled in emergency, medicine, heart care, and ECG diagnosis, as well as performing various cardiology procedures.

#### **Specific tasks and accomplishments include:**

- Cardiology diagnosis, treatment, and management, including performing ECG and diagnosing cardiac conditions.
- Patient screening, consultation, and communication
- Coordination with other healthcare professionals to provide comprehensive care.
- Participation in departmental meetings and continuing education programs
- Managing and treating heart emergencies such as cardiac arrests and arrhythmias
- Administering medications and therapies such as blood thinners and beta blockers
- Collaborating with cardiologists and other specialists to provide comprehensive care.
- Assessing patient risk factors and creating individualized treatment plans
- Monitoring and tracking patient progress, including conducting follow-up appointments
- Participating in research and quality improvement initiatives in the department
- Independently managed CCU and emergency
