### PROFESSIONAL SUMMARY

With over 13 years of clinical expertise in general and cosmetic dentistry, I am a dedicated and experienced dental professional, who specializes in Endodontics. Utilizing cutting-edge technology for precise diagnosis, treatment planning, and delivering treatment using a minimally invasive approach. I am highly detail oriented and empathetic, having commitment to lifelong learning and professional growth and known for being someone who values open communication and values-driven dental practices. Having fluency in English and Hindi, I am able to communicate effectively with patients from a diverse population. I am enthusiastic about bringing my dental skills and passion to a practice that prioritizes patient satisfaction and high quality care.

### EXPERIENCE

#### ENDODONTIST

**June 2019 to August 2023**

Shri Sai Nursing Home (Dental & Maxillofacial Unit) Karnataka, India

- Reviewed patient's medical history , discussed their symptoms and concerns; utilized the dental office equipments, digital radiography and CBCT technology for accurate diagnosis and formulating suitable treatment plans.
- Performed numerous Root canal treatments and retreatments, regeneration and revascularization therapies, resorption and other complex endodontic treatments on patients in need.
- Managed traumatized cases and endodontic emergencies.
- Assisted doctors with surgical procedures apicoectomies, biscupidization, hemisection , root resection and endo perio lesions.
- Collaborated with a dental team to diagnose and develop treatment plans for patients with complex, multidisciplinary needs, followed by restoring function and aesthetics using various types of prostheses resulting in improved patient quality of life.

#### GENERAL DENTIST

**June 2010 to May 2016**

Preeti Speciality Dental Clinic Karnataka, India

- Provided comprehensive dental care to patients, including routine restorations, oral prophylaxis and non surgical tooth extractions.
- Assisted in delivering endodontic treatments under the supervision of senior endodontists.
- Worked with pediatric patients, traumatized patients and special need patients to provide most comfortable experience possible.
- Rehabilitated the loss of masticatory function and aesthetics through the fabrication of removable and fixed prosthesis such as zirconia crowns and veneers.
- Provided in office and take home tooth whitening /bleaching procedures.
