Proven Job Role

Max International Hospital & Trauma Centre, Nepal

Jan, 2023 to Sep, 2024

Registered Nurse (ICU care)

- Provided critical care to patients with life-threatening conditions, including those on ventilators, post-surgery, or with multi-organ dysfunction.
- Monitored and recorded vital signs, including blood pressure, heart rate, oxygen saturation, and neurological status, ensuring early identification of clinical changes.
- Administered medications, fluids, and blood products as prescribed, following strict safety protocols and guidelines.
- Operated and maintained advanced medical equipment such as ventilators, infusion pumps, cardiac monitors, and defibrillators.
- Assisted physicians during invasive procedures such as intubation, central line insertion, and arterial blood gas (ABG) sampling.

- Implemented infection control measures, including maintaining a sterile environment and monitoring for signs of hospital-acquired infections.
- Collaborated with multidisciplinary teams to develop and update individualized care plans for critically ill patients.
- Educated patients' families on care plans, prognosis, and the emotional aspects of dealing with critical illness.
- Participated in rapid response and code blue situations, providing immediate and effective interventions.
- Documented all care activities accurately in electronic medical records (EMR), ensuring compliance with hospital policies and regulatory standards.
- Provided pre- and post-operative care for surgical ICU patients, including monitoring for complications and managing pain effectively.
- Maintained up-to-date knowledge of ICU protocols, advanced life support techniques, and emerging trends in critical care nursing.

Max International Hospital & Trauma Centre, Nepal

Nov, 2015 to Dec, 2017
