+ ABOUT ME

As an enthusiastic registered DHA professional with 2.5 year of experience, I am eager to bring my expertise in medical laboratory to a dynamic hospital or clinic. With a solid foundation in chemical synthesis methods and a keen understanding of spectroscopy, I am well-prepared to contribute to an established medical laboratory team. My goal is to leverage my specialized knowledge to not only support your laboratory's objectives but also to further my professional development in this exciting field. I look forward to postions like Medical lab Technician or Assistant Lab Technician.
