CAREER OBJECTIVE:

Seeking a challenging opportunity to demonstrate my skills, abilities and aim for simultaneous achievement of corporate and personal goals in a dynamic environment offering career growth and professional development.

WORK EXPERIENCE:

Phlebotomist (September 2019–November 2020)

Thyrocare Lab (Mumbai, India)

- Collect blood samples from patients.
- Practice proper patient identification, especially when working on hospital floors.
- Label vials with patient names and dates.
- Decipher the best method for drawing blood depending on the specific patient.
- Transport all specimen samples to a nearby laboratory.
- Centrifuge blood samples, depending on if this is allowed in the state you are working in.
- Expect to work with a large number of patients varying in age and health status.
- Be friendly, courteous and sympathetic when it comes to working with patients.
- Keep your phlebotomy cart or station well-organized at all times.
- Practice infection control standards at all times when working with patients and equipment.
