### Kerala Paramedical Council Govt of kerala

Registration No : 5024

Expiry date : 31/12/2027

## SELF EVALUATION

Diligent and detail-oriented Medical Laboratory Technologist seeking an entry-level position to apply my knowledge of laboratory procedures and instrumentation to ensure accurate and timely test results, while providing exceptional patient care and contributing to the success of a healthcare organization.

## WORK EXPERIENCE

### ◆ SPATH LABS AND SCAN KOCHI

MEDICAL LABORATORY TECHNOLOGIST JUNE 2021  
- DEC 2021

### ◆ DOCTOR'S SPECIALITY FULLY COMPUTERISED LABORATORY MAIN ROAD PADINHARATHARA

MEDICAL LABORATORY TECHNOLOGIST JAN 2022  
- MAR 2024

### ◆ FIMA HI-TECH LABORATORY

MEDICAL LABORATORY TECHNOLOGIST APR 2024 -  
APRIL 2025

## EDUCATIONAL QUALIFICATIONS

### ◆ SSLC- Govt Of Kerala March 2014

### ◆ HIGHER SECONDARY EDUCATION - Government Of Kerala March 2016

### ◆ BACHELOR OF SCIENCE IN MEDICAL LABORATORY TECHNOLOGY - Kerala University Of Health Sciences March 2021

## AREAS OF EXPERTISE

### Laboratory Operations and Maintenance

- ◆ Supplies Management & Inventory: Skilled in managing lab supplies, conducting regular inventory checks, and maintaining accurate records to ensure continuous operation.
- ◆ Equipment Maintenance & Troubleshooting: Proficient in routine maintenance and troubleshooting of lab equipment such as hematology analyzers, biochemistry analyzers, Hormone analyzers, electrolyte analyzers, and coagulation analyzers.
- ◆ Worked with Sysmex 2000i and 4000i, Abbott Architect ci4100, Miska i2, D10 biorad, Cobas e-401 biochemistry analyzer, Electrolyte analyzer, Erma C-120 coagulation analyzer, Biomerieux Mini Vidas Immunoassay analyzer, Mindray, Bio-Rad, Beckman Coulter systems etc.
- ◆ Laboratory Safety & Standards: Ensure lab operations comply with safety protocols and regulatory standards, including routine safety checks and the proper handling of hazardous materials.

## SKILLS

Phlebotomy expertise  
Auto Analyzers Handling  
Troubleshooting  
Maintenance of equipment  
Manual staining expertise  
Microscopy  
Peripheral smear screening  
Medical Record Managements  
Quality Control & Assurance  
Laboratory Safety  
Attention to detail  
Inventory management  
IT Skills  
Communication Skills

## LANGUAGES

English  
Hindi  
Tamil  
Malayalam

## CLINICAL AND DIAGNOSTIC PROFICIENCY

Sample Analysis & Testing:

- ◆ Proficient in conducting tests in Biochemistry, Hematology, Clinical Pathology, Histopathology, Cytology, Immunohematology, and Serology.
- ◆ Well versed with pre analytical, analytical and post analytical precautions and sample rejection criteria.
- ◆ Phlebotomy Expertise: Skilled in drawing blood from patients of all age groups, ensuring accurate and safe specimen collection.
- ◆ Manual Staining Techniques: Expertise in manual staining procedures for Hematology, Histopathology, Cytology, and Microbiology, ensuring accurate diagnostic results.

### Quality Control and Analysis

- ◆ Quality Control (QC): Performing regular quality control checks on laboratory tests, analyzing QC results, and ensuring accuracy in test outcomes.
- ◆ QC Performance & Result Analysis: Proficient in analyzing and interpreting QC results, identifying any discrepancies or errors, and taking corrective actions when necessary.

### Report Supervision and Documentation

- ◆ Laboratory Procedures and Reports Supervision: Oversee laboratory procedures, ensuring adherence to standardized practices, and ensuring proper documentation of results for future reference and compliance.

### Collaboration and Communication:

- ◆ Strong verbal and written communication skills, facilitating effective collaboration with healthcare professionals. Capable of providing clear instructions for patient sample collection to ensure accurate and timely testing.

## DECLARATION

I hereby declare that the details furnished above are true to the best of my knowledge.
