OBJECTIVE

I am a radiology specialist who has a good radiological knowledge and experience in performing and interpreting basic radiological procedures in diagnoses and prognosis. I am motivated, dedicated, hardworking, confident and very meticulous to reach the most relevant diagnosis. I am adapted at handling multiple tasks on daily basis competently and at working well under pressure. I am efficient as team member and willing to help my colleges. Furthermore, I have good teaching skills in working with junior residents and registrars on clinical radiology. Looking forward to work in a well established hospital which has all modalities to make best effective use of my knowledge.
